Subject: Stepan Chemical

Pat:

This confirms our conversation on June 23, 2008 regarding the classification of the tailings material at the Stepan Chemical/Maywood site. (b)(5)

(b)(5)

(b)(5) Since the State has indicated that they have no intention to ask for jurisdiction over 11(e)(2) material as part of their agreement state application, the State of New Jersey becoming an Agreement State should not impact the Stepan Chemical license or NRC's agreement reflected in the draft consent order concerning the transfer of responsibilities as the Corps of Engineers cleans up the waste pits in series.

Please contact me if you have any additional questions regarding this matter.
