The NRC staff has identified that additional information is needed to continue its review of the combined license application. The NRC staff's request for additional information (RAI) is contained in the attachment. Luminant is requested to inform the NRC staff if a conference call is needed.

The response to this RAI is due within 42 calendar days of May 19, 2010.

Note: If changes are needed to the safety analysis report, the NRC staff requests that the RAI response include the proposed changes.

QUESTIONS for Quality and Vendor Branch 1 (AP1000/EPR Projects) (CQVP)

14.02-17

Regulatory Basis: NUREG-0800, Standard Review Plan (SRP), Section 14.2

In your response to Question 14.02-4 of RAI 2954 (CP RAI #75) dated November 11, 2009 (ML093220204); you proposed to include some additional information in subsection 14.2.2 of the FSAR Revision 1. Specifically, you proposed to include a description of the education, training, qualification and experience requirements for individuals and organizations that support preoperational and startup testing. In addition, you also proposed to include Table 14.2-203 which compares the staff qualification requirements between ANSI-3.1-1993, MUAP-08009 and Table 13.1-201 of the FSAR. However, upon review of subsection 14.2.2 of the FSAR Revision 1, the description of the education, training, qualification and experience requirements and Table 14.2-203 are missing from subsection 14.2.2 of the FSAR Revision 1.

Therefore, the applicant is requested to:

1. Revise and update subsection 14.2.2 to include the description of the education, training, qualification and experience requirements for individuals and organizations that support preoperational and startup testing and also to include Table 14.2-203.
