Subject: comments on NJ Agreement SECY-09-0065

Hi Robert,

Per our conversation, re: the comments on the draft assessment, on page 13, 5th full paragraph, under b. Assessment of Staff Qualifications: the comment has us adding "by the signature date of the Agreement." at the end of the last sentence. This relates to when all the staff will be completing their training or have a waiver.

NJ's fiscal year ends June 30, 2009, so to say "by the effective date of the agreement." is fine for the staff currently on board. However, there is one staff person who was hired in April 2009 and this person will not be able to complete all required courses by then.

If possible, could the comment be modified to state that "staff should add a time period by which NJ staff will have met the training requirements or received waivers" in this discussion? This will give us some flexibility in adjusting the language to match the comment given the schedule for the new person, per the above.

Thanks so much.
