Subject: Chapter 7 Draft RAI 4736
Attachments: RAI 4736.doc

James:

I have attached to this electronic communication a draft request for additional information (RAI) for Chapter 7 of the STP COLA. If you need a conference call to clarify the requested information, please contact me. If a conference call is not needed, please send me an email and I will continue the formal process of issuing the RAI to STPNOC.

Thanks,

Adrian Muñiz, USNRC

Request for Additional Information No. 4736 Revision 3

South Texas Project Units 3 and 4
South Texas Project Nuclear Operating Co
Docket No. 52-012 and 52-013
SRP Section: 07.01 - Instrumentation and Controls - Introduction
Application Section: Chapter 7, Setpoint Methodology Technical Report WCAP-17119-P

QUESTIONS for Instrumentation, Controls and Electrical Engineering 2 (ESBWR/ABWR Projects) (ICE2)

07.01-***

WCAP-17119-P, Rev. 1, “Methodology for STP 3 & 4 ABWR Technical Specifications Setpoints,” which is a part of the STP 3 & 4 COL application makes a reference to WCAP-17137-P, “Westinghouse Stability Methodology for the ABWR” for determining OPRM setpoints (Table 3-80, Note 7). Note that WCAP-17137-P is a part of the set of fuel related topical reports that form the basis for Post-COL fuel amendment application. Making a reference to a Post-COL document in the COL application is inappropriate. The applicant is asked to resolve this issue.
