LICENSE, CONTROL NO. 140914

Dear Dr. Gaudier:

Enclosed is the Corrected Copy of Amendment No. 6 for License No. 52-25016-01. In accordance with your amendment request dated July 31, 2007, and the telephone conversation on May 20, 2010 between Grisele Alejandro of your staff and Lester Tripp of my staff, Condition No. 10 has been changed to add an additional area of use, Suite 101. We apologize for any inconvenience this error may have caused.

Prior to release of Suite 113 for unrestricted use, please perform a closeout survey which includes performing area surveys and wipe tests of all areas of use and submit these surveys to the NRC as a license amendment request.

In addition, please note that a total possession limit for licensed material authorized by 10 CFR 35.300 has been added to your license, in accordance with current NRC policy. Please notify us immediately if this limit is too restrictive.

Sincerely,
