Docket No. 03036010

Cell: 314-406-9387

SUBJECT

Information about potential eviction

SUMMARY

Kelly confirmed that Altus has access to the facility. I told her about the radioactive material, the locations where it is, and associated hazards. She confirmed that Altus will keep the facility secured by locking it until all radioactive material is transferred to an authorized person, and that the few Altus employees who will have access will be informed about the radioactive material, the locations where it is, and associated hazards. I also told her that the facility cannot be released to unrestricted use until all radioactive material is transferred to an authorized person and a close-out survey shows that the facility meets the criteria for release. She requested help to obtain an authorized firm to decommission the facility. I provided her with CRCPD contact information to obtain assistance with getting an authorized firm to decommission the facility.

ACTION REQUIRED

Place in ADAMS.

Continue monitoring of the situation
