Dear Mr. Leuer:

On behalf of the Nuclear Regulatory Commission (NRC), I am responding to your May 10, 2010, letter to Chairman Jaczko regarding the draft revision to NUREG-0654/FEMA-REP-1, Supplement 3 guidance. The NRC is working closely with the Federal Emergency Management Agency (FEMA) on the revision to this joint guidance document. To ensure the visibility of your comments in the public process, the NRC has posted the contents of your letter on Regulations.gov. All comments provided through Regulations.gov will be reviewed by a joint panel comprised of NRC and FEMA personnel.

The development of the draft Supplement 3 document was closely coordinated with FEMA and as a result of stakeholder feedback, the public comment period has been extended an additional 75 days to August 9, 2010. The NRC and FEMA are working to schedule additional public meetings to facilitate further discussion of the joint guidance document during the comment period.

Thank you for taking the time to provide comments on this document.
