Re: Licensee Changes in Ownership for Docket No. 03035030 and License No. 52-25470-01

mes

Dear Mr. Ragland:

Below you may find the required information concerning changes of control of the reference licensee as numbered in document sent by yourself:

- a. Since Central Industrial Services will not be providing laboratory services from May 28, 2010, nuclear gauges will be transferred to a new corporation.
- b. The name of the new corporation is MGV-GES Lab, Inc which pretends to assume control of gauges as soon as Central Industrial Services, Inc. ceases providing laboratory services. Attached you may find the certificate of incorporation.
- c. Most of personnel actually working in Central Industrial Services, Inc. will remain in their positions with MGV-GES Lab, Inc. including the RSO Marcus Garcia Vincenty.
- d. Organization, location, facilities, equipment or procedures that relate to the licensed program will remain the same.
- e. Physical inventory of gauges and documents have been conducted every six months. Leak tests have been conducted on each gauge every six months. Dosimeters are delivered to be measured every two months. Daily logs are filled every day registering any gauge management and/or transportation. Procedures are conducted based on instructions presented in license document and pertinent NRC regulations. These procedures will be on schedule by the time of transferring.
- f. We confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records

Central Industrial Services, Inc. – Geotechnical Division
PO Box 2020 PMB 131 Barceloneta, PR 00617-2020 Tel. 787.846.5454 Fax. 787.846.5425

REC'D IN LAT MAY 20 2010

NMSS/RGN1 MATERIALS-002

- include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.
- g. We confirm that the transferee will abide by all constraints, conditions, requirements and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program. Marcus Garcia Vincenty will continue being the RSO in MGV-GES Lab.
 - h. Our license does not require financial assurance.

Cordially submitted,
Central Industrial Services, Inc.
Geotechnical Division

Marcus García Vincenty, P.E., M.E.C.E.
Radiation Safety Officer
