On April 22, 2010, at 7:00 p.m., an Annual Assessment Meeting was conducted at the Colonial Terrace in Cortlandt Manor, NY, between the Nuclear Regulatory Commission (NRC) and Entergy Nuclear Northeast (Entergy). The NRC requested this meeting to discuss the NRC's annual assessment of the safety performance of Indian Point Units 2 and 3 (IPEC), for the calendar year 2009. The NRC presentation included a discussion of the Reactor Oversight Process (ROP) and the results of the NRC's performance assessment for IPEC. As part of this meeting, Entergy senior managers presented their perspectives regarding performance at IPEC and initiatives in selected areas. Members of the public observed the meeting.

After completion of the meeting between the NRC and Entergy managers, the NRC staff held a question and answer session with stakeholders and members of the public to discuss stakeholder views and respond to questions. The staff's responses focused on the agency's role in ensuring the safety and security of the plants.
