

Discussion items for Configuration Management of Licensing Documents

- Propose revision of Section 2.6.3 of License Application to:
 - Add Section 2.6.3.1 to clarify how approval authority determination is made for License Application, SDR, Emergency Plan, and Decommissioning Cost Estimate.
 - Specify ISA Summary is submitted annually, vs. ISA in entirety
 - Describe that revisions to License application are submitted annually (same time frame as ISA Summary)
 - Add Section 2.6.3.2 to move Safety Demonstration Report wording from Section 8.2 to 2.6.3.2 (to address changes to all licensing documents in same section) (no change to previous wording from Section 8.2).
 - Added Section 2.6.3.3 to address changes to Emergency Response Plan and Decommissioning Cost Estimate (consistent with CFR 40.35(f) and 40.36(d) (this aligns with wording in existing License Condition 18).
- If above changes to License Application are to be made, process change via configuration management process? Or, via License Amendment?
- Is additional process description necessary? If so, locate where? License condition?
