2. TI 2515/179	02/02/10

TRANSMITTED:

<u>Number</u>	<u>Date</u>
TI 2515/172, rev. 1	05/27/10
TI 2515/179, rev. 1	05/27/10

TRAINING: None

REMARKS: TI 2515/172, Revision 1 (Reactor Coolant System Dissimilar Metal Butt Welds) has been revised to address questions raised by the regions after the initial round of inspections. The revision also: (1) adds inspection requirements for mitigation by onlay and inlays and (2) balances increased inspection requirements with reduced requirements on mitigation by stress improvement.

TI 2515/179, Revision 1 (Verification of Licensee Responses to NRC Requirement for Inventories of Materials Tracked in the National Source Tracking System Pursuant to Title 10, Code of Federal Regulations, Part 20.2207 (10 CFR 20.2207)) has been revised to update the completion and expiration dates to allow for more efficient use of inspection resources.

DISTRIBUTION: Standard
