Field Office _____

Temporary Job Site Inspection Clinton Central Junior/Senior High School

PROGRAM SCOPE

The licensee is a private engineering/consulting company located in Westfield, Indiana. They perform soil density in the Westfield, Indiana area. The licensee has two Troxler model 3440 series gauges. The gauges are stored at the licensee's facility. The licensee has four authorized gauge users who have completed the manufacturer's training.. The licensee does not perform any service or maintenance activities on the gauges.

Performance Observations

The inspector observed operations at a temporary jobsite at Clinton Junior/Senior High School. The operator possessed required shipping papers which contained all appropriate information and were accessible in the transport vehicle. Gauge/case were locked and chained to the rear of the vehicle during transport. The operator demonstrated an adequate level of understanding of emergency and handling procedures during job-site interviews. Security during transport and at the job-site was described and observed respectively with no problems noted. The inspector performed independent and confirmatory radiation measurements which indicated similar results as noted in the licensee's survey records.
