

### Attachment 3: Changes from Revision 8 to Revision 9

<b>Template Section</b>	<b>Detailed Change Description</b>
	Some minor typographical changes were made throughout the document to provide consistency in the use of commas, spacing, and correct minor spelling issues and use of terms that do not have any change in the intent of the document. These are not called out specifically in this table.
Part II, Section 1	Added clarifying statements to the Note specific to the operating organization regarding the reporting relationships and the minimum fields of knowledge of the plant staff.
Part II, Section 17.2	Added clarifying statement regarding the use of optical disks, since not all licensees use optical disks for electronic storage.
Part II, Section 18.1	Placed brackets and italics around the list of activities subject to audit since they are dependent on the scope of the QAPD.
Part V, Section 1	Added definition for independent review.
Part V, Section 3	Added criteria for correcting off-normal conditions to the description of system procedures.
Part V, Section 3	Revised the paragraph on Emergency Operating Procedures to change “should” to “shall” and to add examples of immediate operator actions.
