Paul, Don-

Below are two new draft RAI's. Let me know if they are acceptable. These issues were discussed at a phone call on 5/27.

### RAI-SRP6.2.2-SRSB-43

In WCAP-17028-P, Rev. 5, the values of the "measured DP at the highest bed resistance by 9 hr plant time" listed in Table 8-5 for the concurrent debris addition tests are inconsistent with Table 9-2. Please make corrections as appropriate.

### RAI-SRP6.2.2-SRSB-44

In Table 6-2 of TR 26, the LOCADM calculation results for the maximum sump volume case and the minimum sump volume case, respectively, appear to be reversed. Please make corrections as appropriate.
