SUBJECT: NOTICE OF VIOLATION - NRC INSPECTION REPORT NO.
03035409/2010001, MEDSTAR GEORGETOWN MEDICAL CENTER, INC.

Dear Mr. Sachtleben:

Between January 27 and January 28, 2010, Tara Weidner of this office conducted a safety and security inspection of activities authorized at your facilities by the above listed license. Additional information provided in correspondence dated March 31, 2010 and May 11, 2010 were also considered as part of the inspection. The findings of the inspection were discussed with Emma Hooks, Assistant Vice President of Safety Management, Environmental Quality, and Dennis Clum, Radiation Safety Officer, of your organization at the conclusion of the inspection on May 21, 2010.

Based on the results of this inspection, and in accordance with the NRC enforcement policy, the NRC has determined that your activities were not conducted in full compliance with NRC requirements and are detailed in the enclosed Notice of Violation (NOV). An NOV is being issued because your organization did not identify the noncompliance. The NRC has concluded that information regarding the reason for the noncompliance and the corrective actions taken and planned to prevent recurrence is already adequately addressed on the docket. Therefore, you are not required to respond to this letter unless the description therein does not accurately reflect your corrective actions or your position. In that case, or if you choose to provide additional information, you should follow the instructions specified in the enclosed NOV.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC document system (ADAMS), accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

<p>Enclosure(s) transmitted herewith contain(s) SUNSI. When separated from enclosure(s), this transmittal document is decontrolled.</p>
