Subject: Status of NRC license for Lagan, Puerto Rico, Limited, LLC License No. 52-31080-01

The U.S. Nuclear Regulatory Commission has been trying to contact you for over 3 months since you are listed as the Project Manager and Radiation Safety Officer of Lagan Puerto Rico Limited, LLC, on your application for an NRC license. . Your telephone numbers at the facility located at Edif Caribbean Airport Bldg 1, Office 213, Suite 1, Carr. Sector Central 150, Carolina, PR 00979; telephone numbers 011-787-253-1010/1018, have been disconnected and the **NRC has not received any information regarding amendment or termination of the NRC license 52-31080-01 indicating the location the Troxler gauges.** The NRC License authorizes the use of Troxler Electronic Laboratories, Inc. Model 3440 nuclear gauges. We have left messages at a telephone number found by internet search for you as 787-469-6725, however you have not responded to the messages left on the voice mail.

The NRC requests that you as RSO of this license, provide the NRC with information as to the status of the NRC license which does not expire until August 31, 2015. Also where are the Troxler gauges authorized for use in Puerto Rico located.

You can terminate the NRC license by using NRC Form 314 (which you can use to terminate the NRC license). This form can be found using the internet at <http://www.nrc.gov/reading-rm/doc-collections/forms/nrc314.pdf>. Please mail this form and a copy of the final leak test record of each gauge possessed under the license and any other information within 30 days to:

U.S. Nuclear Regulatory Commission, Region I
475 Allendale Road
King of Prussia , PA 19406 U.S.A.
Att: LAT-Control No.144587

Your cooperation in this matter will be greatly appreciated.

Jenny M. Johansen, Health Physicist
Security & Industrial Branch
Division of Nuclear Materials Safety
U.S. Nuclear Regulatory Commission, Region I
475 Allendale Road
King of Prussia , PA 19406 U.S.A.
