GENERAL INSTRUCTIONS

- 1. Fill out this form in DUPLICATE and send WITH \$10.00 FEE to 15 South 15th Avenue, Phoenix, Az 85007
2. For specific instructions, limitations and conditions, see the reverse side of this form.
3. State the registration number of the existing well and legal basis of entitlement to withdraw groundwater.
4. Construction standards for replacement wells and the deepening and abandonment of existing wells shall be in accordance with Department Rules and Regulations.
5. Section 445-596(D), provides that the Director shall determine that all information required on form has been submitted. If not, the person filing will be notified, and the drilling, deepening, or modification of the well may not proceed.

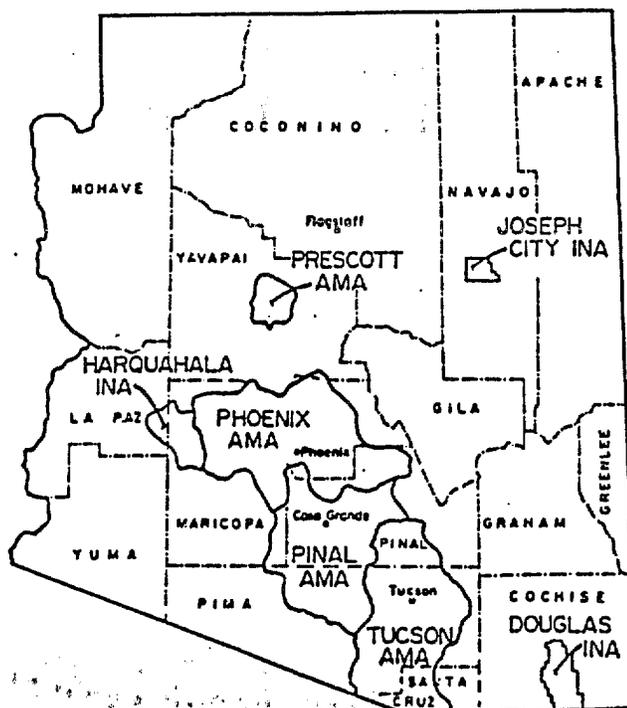

I state that this Notice is filed in compliance with A.R.S. §§45-596 and 45-597 and is complete and correct to the best of my knowledge and belief and that I understand the limitations and conditions set forth on the reverse side of this form.

RE: Registration No(s). 55-613123
File No. B(1-6)27 ddc

Dear Permittee:

Enclosed for your records is your copy of the (NOI)'s to modify Existing Non-Exempt Well in the Same Location within an Active Management Area which you recently filed with this Department, is being returned to you as evidence of your compliance with §45-596. The enclosed Completion Report is to be submitted when pump equipment is installed. The Drilling Card and Well Drilling Report form have been sent to your driller. He may not begin drilling until he has received the Drilling Card and it must be displayed on the rig during drilling. If you change drillers, you must supply this Department with the new driller's identity. Please ensure that the driller you select is licensed to drill the type of well you require. All well drillers must pass an examination proving they understand the drilling methods for that particular license, and are familiar with the laws and regulations which govern well construction in Arizona.

A.R.S. § 45-600 requires the registered well owner to submit a Completion Report within 30 days after the installation of pumping equipment. It also requires the driller to furnish this Department a complete and accurate log of the well within 30 days after completion of drilling. You should ensure that both of these reports are filed by the applicable deadline.

Per ARS §45-593, the person to whom a well is registered shall notify this Department of a change in ownership of the well and/or information pertaining to the physical characteristics of the well in order to keep this well registration file current and accurate. We have enclosed a Change of Well Information Form should it be needed in the future.

Sincerely,

A handwritten signature in cursive script that reads "Sylvia Valdez".

Attention: Al Ramsey

Dear Mr. Ramsey:

Subject: Notice of Intention to Deepen, Replace, or Modify an Existing, Non-exempt Well at Approximately the Same Location in an Active Management Area
File: 93-001-028

Enclosed is the notice of intention to deepen, replace, or modify an existing, non-exempt well at approximately the same location in an active management area; along with the check No. 55028660 in the amount of \$10.00 to cover the filing. During a routine maintenance inspection of one of our water wells it was determined that the repairs necessary to return the well to service would require sleeving the well. This filing is to cover that operation.

If you should have any questions, please call Mr. Mannie L. Carpenter at 602-393-5605.

Sincerely,

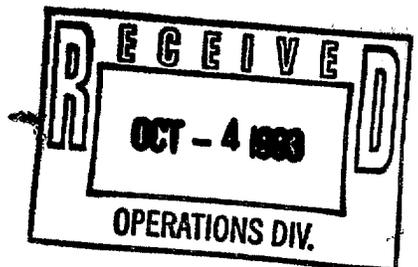

Gary L. DeClue, General Manager
Environmental, Health and Safety
