Amy and Julie,

Attached is the weekly status report information for tomorrow's 8:00 am call. I updated last week's status report to serve as an agenda for the call.

- RAI 1-5 in the pdf file should reference ML10390203 and is related to the FSAR 1.4 discussion that we had. We are not sure why the ML number is not showing up in the report and are taking steps to correct this. **Status update – issue resolved pdf report reflects appropriate ML number**
- RAI 17.5-7 and 3.5.1.4-2 were changed to issue open action applicant based on Friday's phone call (below is a draft of the summary from that call that Terri is working to formalize). **Status update – Terri still working to formalize summary, however, RAI statuses have been changed to reflect SCE&G action. A 5/24/10 letter from SCE&G appears to address the 17.5-7 update.**
- ERAI 4414 in the xcel spreadsheet will be removed once the summary below is finalized. **Status update – Terri still working to formalize summary**
- ERAI 4488 in the xcel spreadsheet shows that this RAI is in evaluation but there is no corresponding ERAI in the pdf status report. This is because we just added ERAI 4488 to track a 2/25/10 letter (ML100600365) that you sent us related to some QA verbal questions. The response includes a commitment to make future changes to the QAPD. We are adding the item to track the commitments in the letter. **Status update – item now appears in pdf file**
- We are taking steps to remove ERAI 2104 and and 3260 from the xcel spreadsheet database, once we confirm with the reviewers that they are no longer needed. **Status update – 3260 deleted. Regarding ERAI 2104 Ken See does not believe the ERAI is needed. The ERAI was as follows: *In order to perform an independent assessment that the safety-related structures for Units 2 and 3 would be safe from potential flooding during local intense precipitation event, even if the entire underground storm drainage system is completely blocked, the staff requests that the applicant provide all of HEC-RAS and HEC-HMS input files used to support analysis found in section 2.4 of the COL application.***

Ken believes you provided the information without the NRC having to issue the RAI. I only had one question – was this information submitted formally to us and submitted under oath. Recall we had a similar issue with met data were we asked you to provide the information under oath. Please confirm the information was submitted via letter so I can delete this erai from the system.

- New issue – Confirm RAI 2.4.2-1 response was provided by 4/1/10 letter (ML100960022).
- New issue – phone calls need to be arranged for wetbulb temperature exemption draft RAI responses and 5/27/10 groundwater response
- New issue – based on review of 2.3 SER input it was identified that two tables in the Summer FSAR have the incorrect data associated with x/q and snow loads. The staff will provide more

2. On page B 3.7.1-6, remove the space between the first and second paragraphs at the top of the page. This is found in other locations, such as B 3.2.2-5 and B 3.2-8. Correct the formatting for tables or sections that incorrectly carried over to the next page, per the AP1000 DCD and TS Writer's Guide.

**Issued/Open Action applicant** -- The question has been issued to the applicant and the NRC is waiting for a response from the applicant.

**Responded** -- The applicant has provided a response to the question.

**Confirmatory Action Applicant** -- The applicant has responded the question. The NRC has reviewed and agrees with the response but some action included as part of the response is not complete (e.g., FSAR change is not formally submitted).

**Confirmatory Action NRC** -- The response to the question is acceptable but the NRC wants to verify/confirm that the application contains the information to close the issue. This is NRC staff's activity and no additional information is required from the applicant.

**Resolved/Closed** -- The NRC has accepted the response and no additional issues or concerns are remaining for that question.

**Question closed/Issue Unresolved** -- Question Closed means that the question can be closed if it is related a similar question or superseded by another question. Issue unresolved means that the issue

**\*\*--- Status is not a final determination by NRC.**

**Issued/Open Action applicant** -- The question has been issued to the applicant and the NRC is waiting for a response from the applicant.

**Responded** -- The applicant has provided a response to the question.

**Confirmatory Action Applicant** -- The applicant has responded the question. The NRC has reviewed and agrees with the response but some action included as part of the response is not complete (e.g., FSAR change is not formally submitted).

**Confirmatory Action NRC** -- The response to the question is acceptable but the NRC wants to verify/confirm that the application contains the information to close the issue. This is NRC staff's activity and no additional information is required from the applicant.

**Resolved/Closed** -- The NRC has accepted the response and no additional issues or concerns are remaining for that question.

**Question closed/Issue Unresolved** -- Question Closed means that the question can be closed if it is related a similar question or superseded by another question. Issue unresolved means that the issue

**Issued/Open Action applicant** -- The question has been issued to the applicant and the NRC is waiting for a response from the applicant.

**Responded** -- The applicant has provided a response to the question.

**Confirmatory Action Applicant** -- The applicant has responded the question. The NRC has reviewed and agrees with the response but some action included as part of the response is not complete (e.g., FSAR change is not formally submitted).

**Confirmatory Action NRC** -- The response to the question is acceptable but the NRC wants to verify/confirm that the application contains the information to close the issue. This is NRC staff's activity and no additional information is required from the applicant.

**Resolved/Closed** -- The NRC has accepted the response and no additional issues or concerns are remaining for that question.

**Question closed/Issue Unresolved** -- Question Closed means that the question can be closed if it is related a similar question or superseded by another question. Issue unresolved means that the issue

**Issued/Open Action applicant** -- The question has been issued to the applicant and the NRC is waiting for a response from the applicant.

**Responded** -- The applicant has provided a response to the question.

**Confirmatory Action Applicant** -- The applicant has responded the question. The NRC has reviewed and agrees with the response but some action included as part of the response is not complete (e.g., FSAR change is not formally submitted).

**Confirmatory Action NRC** -- The response to the question is acceptable but the NRC wants to verify/confirm that the application contains the information to close the issue. This is NRC staff's activity and no additional information is required from the applicant.

**Resolved/Closed** -- The NRC has accepted the response and no additional issues or concerns are remaining for that question.

**Question closed/Issue Unresolved** -- Question Closed means that the question can be closed if it is related a similar question or superseded by another question. Issue unresolved means that the issue
