Subject: Comments about development of units 3 & 4 in Matagorda Co.

Thank you for the opportunity to make comments via e-mail since I was not able to attend the meetings in Bay City.

As a resident of Palacios and Matagorda County, I am proud that STP is a good neighbor and a productive, tax paying organization. STP's safety record and emergency response methods have been a models for other nuclear power plants throughout the nation. I am excited that new units 3 & 4 will provide new permanent jobs and temporary construction jobs for citizens in our area!

As the Director of The Trull Foundation, I am a member of the Texas Environmental Grantmakers Group. I have learned to appreciate the clean, energy producing aspects of nuclear power. Again, I am proud that Matagorda County has STP as a neighbor, producing **clean** energy. Energy produced in a way that is not a threat to the County's precious assets of water, air, bay critters, birds in flight and citizens of our County.

As a member of the Palacios Hospital board, I appreciate STP and NINA's commitment of support for our Critical Access Hospital, a non-taxing 501c3 organization. The additional tax base support that will come with the creation of units 3 & 4 will provide a critical infusion of support to every aspect of life in the county. I am proud that STP, located in Matagorda County, will be providing a greater amount of electric energy needed to support the needs of families and businesses throughout our great State of Texas!

Thank you,
Gail Purvis, Executive Director
