FW: NRC follow-up request for Tax info related to Kewaunee license renewal

Jeremy

This is what I received from my tax person regarding your last question:

The megawatt-based payment is not a tax paid by DEK (Dominion Energy Kewaunee), but represents the methodology used by the state to allocate state funds to jurisdictions with utility infrastructure – the Utility Aid Payment. As noted in the Taxes Paid by DEK section, DEK pays a gross receipts tax to the state and does not directly pay any material taxes to the local jurisdictions. In years prior to 2009, the state computed the Utility Aid Payment based on net book value of utility assets subject to a cap and floor – Carlton's & Kewaunee's Utility Aid Payment received from the state, not DEK, was based on net book value. Post 2009, the payment made to Carlton & Kewaunee County by the state (again not DEK) is based on a rate per megawatt for DEK. In my opinion, you only need to change the wording in the megawatt-based payment section as noted below. There has been no change in the property tax or gross receipts tax regime (although some changes have been proposed since D acquire the unit.) The only change directly related to DEK (other than a change in the income tax structure in the state in 2009) resulted in a change in allocation of revenues by the state to the local jurisdictions which had no effect on the taxes levied on DEK.

Megawatt-based payment

Through 2008, this component only appliesd to electric generating plants that began operation or were "repowered" after December 31, 2003. Beginning in 2009, this component may applyies to KPS in lieu of the ad valorem payment. The payment is \$2,000 per MW of name-plate generating capacity. For a plant in a town, one-third (\$666.67) is paid to the town and two-thirds (\$1,333.33) is paid to the county. For a plant in a village or city, two-thirds (\$1,333.33) is paid to the county.

Taxes Paid by DEK

In lieu of property tax on its electrical generating plant and other facilities, DEK pays the State of Wisconsin a lump sum gross revenue tax. There is no direct correlation between the amount of taxes paid to the State of Wisconsin and the distribution of funds to local taxing jurisdictions. The allocation of tax revenue attributable to KPS to local taxing jurisdictions is not recorded. Wisconsin state law requires that utility aid funds be paid to the municipalities and counties where utility property is located. The utility aid payments to the town of Carlton and Kewaunee County from the state could be attributed to the presence of KPS in these jurisdictions. Tables 2-15 through 2-19 present information about the town of Carlton's and Kewaunee County's total 23 tax revenues and the utility aid payments to the town of Carlton and Kewaunee County from the State of Wisconsin (for all utility property located in the town of Carlton). As presented in Table 2-16, the utility aid payments represent approximately 58.0 to 69.2 percent of the town of Carlton's total tax revenues. The vast majority of the payments are attributed to KPS. In 2004 and 2005, the town of Carlton collected no general property tax from its residents (DEK, 2008). Additionally, as shown in Table 2-17, the utility aid payments to Kewaunee County represent approximately 2.3 to 3.8 percent of Kewaunee County's total tax revenue.

Paul,

Thanks for this info. From my original email, one question still remains open:

Page 2-48, Line 31: Does this tax now apply to KPS? We want to reword the second sentence of the
paragraph to reflect the current tax situation. If this tax does now apply, we may need to reword the
"Taxes Paid by DEK" section on the next page.

If you get the answer today, could you give me a call at 202-236-8931 (working from home)? Otherwise, I'll be back in the office tomorrow.

Thanks, Jeremy
