Docket No. 50-275-LR & 50-323-LR

Dear Ms. LeViehti-Cook:

Please reject P.G.# E-1 request
for a 20-year license renewal
of the Diablo Canyon Nuclear
Power plant unless & until
the recommendations of the E.E.C.
are met for advanced 3-D
seismic and reflection mapping,
and analysis of a "newly discovered"
earthquake fault nearby.

This plant was poorly designed
and has always posed a danger.

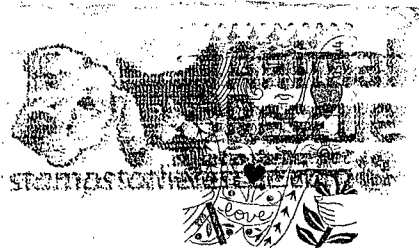

Please make sure it is
absolutely safe before issuing
a license and make it
a five year license renewal
Thank you.

Julian Cook
