EVENT OF POTENTIAL PUBLIC INTEREST NOTIFICATION FORM

Page 1 of 3

This is Carl McKinney at TMI-1 Nuclear Power Station.

My phone number is 717-948-8070

This is an Event of Potential Public Interest at Time: 10:45 AM Date: 11/24/09

Brief Non-Technical Description of the Event: We are notifying you of an Event of Potential Public Interest. This is only a courtesy call to keep you informed in case you receive any public inquires. This is not an emergency event. (Fill in details of specific event.) _____

An Event of Potential Public Interest is being declared due to anticipated media interest stemming from false air monitor alarms received in the containment building last night on two separate occasions. As per our normal process, workers left the area and were monitored. No employee was contaminated. Follow-up air sample analyses confirmed no abnormal levels of airborne contamination were present. The air monitors are set to alarm very conservatively to protect workers and occasional false alarms may be received.
