Subject: Pond Leak

Ron,

Uranium One is reporting a confirmed pond leak at the Christensen Ranch Site, on Thursday June 3, 2010 during routine weekly pond inspections water was discovered on the dip sticks in two of the leak detection tubes, one in the South East corner and one in the South West corner of CR Pond (1), a sample was taken and confirmed to be pond water. Corrective action begin within the hour of transferring water to the other ponds. There is enough pond capacity in the three remaining ponds to hold the entire amount of water in pond (1) should we have to evacuate the entire pond to find the leak. A full written report will be sent in the allotted time frame.

Should you have any questions regarding this matter please contact me at any time.

Thank You,

Larry.
