Mr. S. R. Wright, Director (2)
Environmental Division
Savannah River Operations Office
U. S. Department of Energy
P. O. Box A
Aiken, SC 29802

Dear Mr. Wright:

NAVAL FUEL MATERIAL FACILITY (FMF)
SETTLEMENT AGREEMENT 89-06-SW, ITEM No. 3
FINAL DISPOSAL OF SALTCRETE DRUMS (U)

The subject settlement agreement item requires that SRS dispose of the original 6500 drums of waste subject to this settlement agreement in the Z Area Vault by 7/31/90.

This letter is to inform you that WSRC has completed disposal of these drums in the Z Area Vault in accordance with this settlement agreement item and the conditions of the Z Area Saltstone Disposal Facility Industrial Waste Permit (IWP-217).

This completes the remaining open item associated with this settlement agreement. Please note that efforts to dispose of the drums of saltcrete generated after enforcement action (which are stored on the pads at the Burial Ground) are continuing and will do so until the pads are emptied. In addition, any saltcrete drums generated as part of FMF shutdown will also be disposed of in the Z Area Vaults.

Please forward this information to SCDHEC by 6/30/89 to satisfy Item No. 3 Of the Settlement Agreement. Questions from your staff should be directed to W. J. Maloney (X5-1086).

Yours very truly,

A handwritten signature in cursive script, appearing to read 'J. V. Odum'.

J. V. Odum, Manager
