Subject:**VOID Administrative Amendment Action to Terminate License**(NOTE: This will be used as the
Documents Title in ADAMS)

Informed licensee of current NRC policy concerning Item 8 on license. Asked if he still had 4 gauges as stated in 2007 inspection report. RSO stated the gauges had all been returned to Honeywell International for disposal. He only had generally licensed gauges per 10CFR 31.5 now. He said he had informed Region I of transfer of gauges from LN 44-30327-01. Told RSO he should terminate license per 10CFR30.36 since he has been inactive for 24 months and the licensee would also save specific license annual fees. He said he would submit NRC Form 314 and information on the transfer. Requested information within 30 days
