

Data Capture Document Discovery

(This form will be used in recording the document information in the Site Research Database after the completion of the scanning of the document.)

Reviewers -- fill out all information that applies to the document then place list in front of the document

Site/Facility of Review:

N/A

Date of Review:

7/9/03

Site That Document Applies To:

Document Type:

DOE Site

Historical Information

Name:

Environmental Data

AWE Site

Radiological Incidents/Accidents

Name:

Mallinckrodt Chemical Works

Workplace Monitoring Data (i.e.; contamination surveys, general area/breathing zone air sampling, radon/thoron monitoring, area radiation surveys, fixed location dosimeters, missed dose information, Radiological Control limits, Radiation Work Permits)

Other:

Process Descriptions (i.e.; general description, source terms, encapsulation/containment practices)

Site Dosimetry:

Document Title/Comments:

MCW - AEC/NRC Plant Inspections

1958 and 1996

Medical/X-ray & External Dosimetry (i.e.; TLD Film Badges, Pocket Ion Chambers)

Internal Dosimetry (i.e.; urinalysis, fecal, In-Vivo, breath sampling, radon/thoron, nasal smears)

Monitoring Program Data (i.e.; analytical methods for bioassay, dosimeter performance characteristics, detection limits, exchange frequencies, record keeping practices, measurement units)

Internal Information (i.e.; radionuclides and associated chemical forms, particle size distributions, respiratory protection practices, solubility class).

Claimant Specific Document

Keyword(s):

Plant

Inspections

NRC
