**SUBJECT: TRANSMITTAL OF ABB, INC DECOMMISSIONING PLAN, REVISION 2 DATED FEBRUARY 26, 2010 TO U.S. ARMY CORPS OF ENGINEERS, NEW ENGLAND DISTRICT OFFICE**

Dear Mr. Otis:

In accordance with the NRC letter of August 15, 2007 (ML072210979), which established NRC oversight responsibility of ABB Inc. (ABB) decommissioning activities for the Formally Utilized Sites Remedial Action Program (FUSRAP) materials at the Windsor, Connecticut site, the NRC agreed to provide the U.S. Army Corps of Engineers (USACE) access to relevant decommissioning documents as a means to expedite timely and efficient site closure under FUSRAP.

Consistent with this agreement, enclosed is a CD with revision 2 of the decommissioning plan for the Windsor site submitted by ABB to the NRC on March 3, 2010. This revised decommissioning plan dated February 2010 (ML100610581) supersedes the decommissioning plan dated December 2008 (ML090160381), which was provided to you on April 22, 2008. This revision 2 of the decommissioning plan is currently being reviewed by the NRC staff. Please direct any comments you may have regarding the contents of this plan to me in writing by August 2, 2010, and include the docket, license, and control numbers. Your comments will be considered as part of our review process.

M. Otis
