

June 21, 2010

Mr. Alan J. Cerrone
Continuity Program Manager
Office of Emergency Operations, NA-40
U.S. Department of Energy
National Nuclear Security Administration
1000 Independence Ave.
Washington, DC 20585

Dear Mr. Cerrone:

As Continuity Program Manager for the Nuclear Regulatory Commission (NRC), I am writing to express appreciation for support provided by the Department of Energy (DOE) during Eagle Horizon 2010, the full-scale, interagency, continuity exercise conducted from May 17 through May 19, 2010. DOE staff contributed to the success of the exercise by conducting a thorough and professional review of NRC's continuity program in accordance with the requirements of the Federal Emergency Management Agency (FEMA) National Continuity Programs and National Exercise Programs. Additionally, DOE's evaluation directly supported NRC's transition to FEMA's new Readiness Reporting System by establishing an objective base for NRC's required monthly compliance reports.

Please express the NRC's appreciation to Mr. Avery Church and Ms. June Pauley of your staff. Despite challenging schedule conflicts and previous commitments, their willing personal and professional commitment to the external evaluation task allowed the NRC to meet all of its exercise reporting requirements.

Please contact me at 301-415-6359 if you have any questions.

Sincerely,

Frank Collins, Senior Emergency Response
Coordinator/**RA**
Office of Nuclear Security and
Incident Response

cc: A. Church, DOE
