Radiation Safety Officer
P.O. Box 4865
Missoula, Montana 59806

SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

On NRC Form 314 dated April 13, 2010, you informed the U.S. Nuclear Regulatory Commission that you wished to terminate NRC License No. 25-29220-01. The supporting documentation generated by the NRC determined that Community Medical Center (License No. 25-18361-01) assumed control of the operations of Montana Heart Center Cardiology, including the control of the radioactive calibration sources. This transfer of control was approved by the NRC on February 27, 2008 by issuance of Amendment No. 23 to Community Medical Center NRC License No. 25-18361-01. Based on this information, NRC License No. 25-29220-01 is hereby terminated as stated in the enclosed Amendment No. 02 to the license. An environmental assessment for this licensing action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-860-8189 if you have questions on any of the information stated above.

Sincerely,

/RA/

Roberto J. Torres, Senior Health Physicist
Nuclear Materials Safety Branch B

Docket: 030-37118
License: 25-29220-01
Control: 472676
