Subject: RAI (144583) dated 6/10/2010
(NOTE: This will be used as the Documents Title in ADAMS)

In the letter dated 4/5/2010, NIH informed the NRC that they would like realign their HDR program with the current Part 35. Based on the vagueness of the letter I contacted Mr. Zoon to understand what they intended to change. According to him, in the application dated 2/22/2002, NIH committed to training individuals involved with the HDR program every twelve months. Currently, they intend to train the individuals initially and at least annually, as required by 10 CFR 35. Mr. Zoon will document this in a letter and fax it ASAP.

There have been no other changes to the HDR program, i.e. spot check, operating and emergency procedures.
