Phone/Conference Call Record

Project/Plant: Watts Bar Unit 2

Date/time: May 26, 2010

Time: 8:30 PDT

Attendees:

Name	Title	Agency/Organization
Bob Bryce	Hydrology Lead	PNNL
Souraya Fathi	Permit Writer	Tennessee Department of Environment and Conservation, Chattanooga Field Office

Call title/subject: Other Permits - Watts Bar Nuclear Plant

Purpose of call: I called Souraya Fathi to get information on permits required by the State of Tennessee for the Watts Bar Nuclear Plant (Ph 615-532-0485.) I had her phone number from a previous call to the State about the NPDES permit. I had tried to call Dick Urban but was unable to reach him.

Call notes:

Souraya indicated that she was the NPDES permit writer for the Watts Bar Plant but was not familiar with the other permits required. She did say that TVA had not violated the thermal discharge limits in their permit.

She recommended we contact Vojin Janjic who would be more familiar with the requirements. Vojin Janjic – (Ph 615 532 0670)
