Subject: Limits for License

(NOTE: This will be used as the  
Documents Title in ADAMS)

I had left a message for Steven Laforte on 6/1/2010 @ 12:39 about requiring limits for the amounts of material on the license. Mr. Jacobs called me back and specified 150 uCi for Am-241. He said they did not possess Cd-109 and that they didn't need it but was placed on the license in case the manufacturer of their devices would use this isotope instead. I told Mr. Jacobs that I would look up the activity needed for his device and set the limit so that he would allow for 5 units .

**Action Required: Determine amount for Cd-109 and amend license**
