Dear Ms. Weidner:

Per your request by telephone today for clarification on the amendment request for the Nucletron microSelectron HDR:

We are requesting an amendment to permit conduct of the drills of emergency procedures *annually*, as specified in Part 35 Subpart H, rather than *in intervals not to exceed 12 months* as specified in our original license amendment request dated February 22, 2002.

Sincerely,

Robert A. Zoon, M.E., M.S.
Radiation Safety Officer, NIH
