Subject: Additional information for license amendment

(NOTE: This will be used as the Documents Title in ADAMS)

This record represents a series of e-mail communications on 6/13 and 6/14/10.

The amendment request was to increase the possession limit for Y-90 SIR-Spheres to 132 mCi/vial and 660 mCi total. I informed Nasser that: (1) Sirtex informed NRC that 132 mCi/vial will be the minimum at time of shipment, and (2) the updated SSDR from Massachusetts approves up to 189 mCi/vial. I asked Nasser to consider whether WVUH wishes to increase their request. Nasser asked to modify the request to 189 mCi/vial and 1134 mCi total.

Action Required: Issue amendment
