Donna,

You're probably gone to OKC for the OAS by now, but... We still haven't seen the application yet. We're planning on submitting an EDO daily note upon its arrival. I'll be sure to keep you and Brian posted on its arrival.

Wed. at 10am is fine with me.

Have we received the application yet? Brian wants to know so he can tell Sam Collins and maybe do a daily note.

Thanks,
Donna

Team New Jersey,

Via the attached e-mail, New Jersey notified the NRC that the draft application is on its way. That means that your official commitment to the New Jersey application review will be beginning in the very near future.

I'd like to have a "kick off" meeting the first week of October. Would everyone be able to support a "kick off" meeting on Wednesday, October 3, from 10:00-11:00am? Please let me know your availability. This schedule will give us enough time to receive the package, get it into ADAMS, and distribute it to everyone in advance of the meeting.

To prepare for the completeness review, I recommend that you start familiarizing yourself with the guidance in FSME Procedure SA-700 (particularly Section 4.0) and the Criteria (which I've attached).

Preliminary assignments are as follows:

Team Leader - Staffing and Training/Legislation/Regulations Dennis Sollenberger, FSME/DMSSA - Program Organization/Staffing and Training Bruce Carrico, FSME/DMSSA - Licensing: Industrial Bruce Watson, FSME/DWMEP - Decommissioning Gary Purdy, NSIR - Events and Allegations Joan Olmstead, OGC - Legislation/Regulations/Legal aspects of Enforcement Donna Janda, Region I - Inspections/Enforcement Sandy Gabriel, Region I - Licensing: Medical

These are only preliminary assignments, please let Dennis Sollenberger or me know if you are uncomfortable with your proposed assignments. Or let Dennis or I know if you have any questions.

-Aaron
