Subject: Re: Small Entities (New Jersey)

Brenda - thanks for the response. I left you a message on Friday. I have a few questions about your email.

1). NJ has about 503 NRC licenses and 491 qualified as small entities and received reduced fees? This number seems high - in the NRC FY2007 fee proposal it states that in FY 2006 31% of the licenses (1300) qualified as small entities.

Can I get a listing of all the NJ NRC licenses and their respective fees for FY 2007?

2). I have a listing of NJ NRC licenses and fee categories. There are licenses that are listed as exempt from category 2B. Where is this exemption listed in the reg?

3). Has the NRC reconciled the program codes with the fee categories?

I am using this information as the basis for NJ's fee schedule for the agreement state regulations.

Thanks
Pat

Patricia,

Your question regarding the number of small entity licensees for the state of New Jersey was forwarded to me. In response, I provide the following, for FY 2007 (October 1, 2006 - September 30, 2007), there were 491 licensees who filed under small entity status. NRC collected \$2,593,080, from these licensees. Thanks.
