Subject: RE: PA Transition Plan

Donna,

80 linear feet doesn't sound like many files. That's only around 8 file cabinets. What am I missing?

For the transition plan, I am interested in the plan that was used to prepare for the transition of the licenses from NRC to PA. I thought that the NRC would have worked with PA on the development of their plan and that both the NRC and PA would have coordinated their efforts. I guess I am asking for both plans (NRC and PA).

Thanks

Pat

Hi Pat,

The docket files which will transfer to NJ are estimated to be 80 linear feet.

I need some clarification regarding your request about a copy of a transition plan. Are you looking for a plan PA used to prepare for the transition of regulatory authority or the plan NRC Region I used? I'm only asking because the plan Region I used is just an internal document and I don't know that it will help you much. If you're looking for information on what PA did to prepare, I will gladly contact them to try and get that information for you. If you are interested in Region I's plan, let me know and we can discuss exactly what you need.

Thanks,

Donna

Subject: PA Transition Plan

Donna,

Dennis Sollenberger called to discuss my request for an implementation plan. It turns out what I meant to ask for was a copy of a transition plan. Dennis asked me to request a copy of PA's transition plan from you.

Also, I never got the estimate of the linear feet of licensee files etc. that will be coming to NJ when the Agreement is signed. Thanks

Pat
