See question below from Pat gardner regarding fees. My thoughts - because we don't plan on acting on any licensing actions in the 7-week period that we have regulatory authority (except for "expedited" actions), there will not be any fees assessed (unless it is an expedited request for a new license.) We don't charge fees for license amendments but we do charge for new applications.

However, as I am by no means an expert on licensing fees and the NARM waiver termination, I think FSME should probably reach out to someone in Fees to get the real scoop. What are your thoughts?

Thanks,
Donna

Donna - any thought by the NRC on what will happen with the fees for the licensees that fall under NRC jurisdiction after the waiver terminates and before AS?
Pat

Pat - please see attached for current list of NRC licensees in New Jersey (excluding federal facilities) with active financial assurance documents.

Any questions, let me know.

Thanks,

Donna

Donna - several months ago Dennis Zannoni asked about receiving copies of all the financial assurance instruments and related information for all NRC licensees in New Jersey. Are we able to get these documents? Thanks
Pat
