Subject: question: status of chapter 2 letter for Summer

Amy,

There are 4 things that we are expecting from you to support our issuance of Chapter 2. All of these things have been discussed with you, but there is a new wrinkle on the waterproofing membrane issue. The issues are:

1. The 6.4-201 table that provides standard and site-specific chemicals
2. Thermal monitoring plan (we are expecting to arrange a call – Mike is still waiting to hear from you on this).
3. Changes to 2.3 for snow packs and x/q
4. Waterproofing membrane col information item. We sent a previous email to you on this subject. I also left you a voicemail. The new part of this item is that we now plan to evaluate the col information item in chapter 3. For us to write chapter 2 we need to know with specificity what COL number is going to be assigned to this information item so that we can provide a pointer in chapter 2 to the evaluation in chapter 3. Any insights you can provide would be appreciated.

We hope to be able to discuss at a high-level the status of these issues during tomorrow's 8:30 call.

Sincerely,

Joe Sebrosky
