ORGANIZATION Prairie Island ISFSI				
SUBJECT Draft Proposed License, Technical Specifications and Bases, NOI and PSER - Review/Comment SNM-2506 (AMD 7); Docket No. 72-10 (TAC: L24203)				
SUMMARY (Continue on Page 2)				
<p>List of Participants: NRC: Pamela Longmire, Ph.D., Robert Einziger, Ph.D., and Geoffrey Hornseth NSPM: Glenn Adams</p> <p>As a courtesy, the preliminary safety evaluation report (PSER) and draft copies of the proposed license, technical specifications and bases, and notice of issuance were electronically transmitted to the licensee (NSPM) for review and comment on 6/7.</p> <p>NSPM called to discuss specific content of the draft documents. A conference call was suggested and arranged. NRC staff participated in the conference call to provide clarification on the specific entries in the proposed technical specifications that the licensee had questions about. NSPM apprised the NRC staff that they were not prepared to proceed and requested additional time to review the entire package. NRC staff had no objection to NSPM having more time for their review. The amount of time required for NSPM to complete their review could not be determined at the time of the call. It was then communicated that while NSPM reviews the documents, processing of the license amendment request for SNM-2506 (amendment 7) will be on hold, effective 6/9.</p> <p>Actions: NSPM will provide comments. The NSPM PM will provide the review status to the NRC PM on or about 6/21. Called ended approximately at 1:45 pm.</p>
