Subject: Status of Site 48CA962

Hi Jennifer,

Our office concurred that site 48CA962 was ineligible for the National Register of Historic Places (NRHP) on 7/26/06, during consultation with the BLM on the "Devon Energy, Cutthroat Coalbed Methane POD".

Since that time, the boundaries of site 48CA6695 have been expanded to incorporate site 48CA962. This resource does not qualify for inclusion on the NRHP.

Sincerely,

Richard L. Currit
