Dear Mr. Cohen:

The Crook County Board of County Commissioners would like to express their appreciation for your making our Uranium Mining Roundtable possible and the success it turned out to be. Without you making it known to staff there was a possibility of combining a visit to Crook County with your meeting in Denver, our Roundtable would not have been possible nor as authoritative as it was.

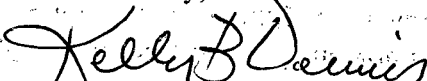

Our landowners were enlightened by your description of the mining application process involved; they needed to receive this information from those investigating applications submitted by mining companies.

We are very pleased with your presentation and want to thank you for going the extra mile by agreeing to complete the question session thru our county newspaper, the *Sundance Times*. Staff will have the list of unanswered questions e-mailed to you within the next 10 business days.

Respectfully submitted,

John A. Moline, Jr., Chairman

J.W. Hadley, Vice-Chairman

Kelly B. Dennis, Member
