**Subject:** RE: License activity limits

Mr. Jensen,

Thank you for your response. I am limited in time in that I am going on leave in a couple of weeks and need to have this completed. Since you had not called back, I was not sure you had received the messages that I have left concerning this action. Your license 19-00915-03, docket 03004530 needs to be administratively amended to current NRC Policy. This licensing action is being performed under Mail Control No. 144635. Please use this when submitting additional information.

In order to comply with current NRC Policy, we need the values you would like to be licensed for on items 8.B. in activity per radionuclide and total activity, and for item 8.C. for total activity. Please note that item 8.D. is still authorized to be "as needed." I need to have these values by the end of next week (June 25). You do not need to be concerned about the Emergency Response Plan limit because in License Condition 15 of your license, you are limited to keeping the amounts below the Emergency Response Plan required limits for any one location.

I will be in the office on Monday, Wednesday, Thursday, and Friday next week. You can contact me during those times or by electronic mail for any additional questions. Please do not send your response by electronic mail.

This amendment will necessitate a change to your Certification of Financial Assurance. I noted that you are the person who signs this document and this could be submitted at the same time. If you do not have enough time to complete this action a new licensing action will be opened so to track this item to ensure that it will get completed.

For the purposes of the licensing record, this email is in response to phone messages that have been left but were not recorded as it was unknown if Mr. Jensen had received the messages.

Thank You,

Dennis Lawyer

**Subject:** License activity limits

Sorry I haven't gotten back to you on the activity amounts for our licenses – I didn't realize you needed it so soon. I can pretty easily give you an estimate for the license (06) but could use until next week to make sure I don't get us into a problem with Emergency Response Plan limits for the 03 license. Unfortunately, I am in training and travel for the rest of this week. Please let me know what your drop-

dead date for this is and I will try and get you some numbers. Sorry for the delay in our response.  
Thanks.
