Arlington, Texas 76011-8064

Re: License No. 42-27593-01

Mr. Torres,

Acuren Inspection respectfully requests the following amendment to the Acuren Inspection Inc. Radioactive Materials. Due to diminishing business opportunities in the Dunbar, WV area, it has become apparent that Acuren Inspection Inc. should cease operations in the Dunbar area.

1. Please remove the following Field Station:

Address: Acuren Inspection
409 27th Street
Dunbar, WV.

I have enclosed Source leak test for the last inventory at this storage location. No Radioactive Materials have been stored at this location since March 2004.

I trust the information I have provided is sufficient for your review. Should you have any questions or comments, please call me at 937-603-1481 or 513-671-7073. Please send any correspondence to me at the following address:

Acuren Inspection
Attention: Chris Dixon
502 W. Crescentville Rd.
Cincinnati, Ohio 45246

Respectfully,

Chris Dixon
Director of Radiation Safety

Chris:

We have reviewed your docket file for the year 2008 and found two letters requesting to add Midland, Michigan as a location of use and another letter requesting removal/addition of an Ona, West Virginia location of use. There is no record of a letter requesting removal of the Dunbar, West Virginia location of use. If this is what you want please submit the letter with copies of leak tests and/or final status surveys.

Chris:

We are processing your amendment request and the attached letter stated that you have enclosed source leak test for the last inventory done at Dunbar, WV. The enclosure was not included with the amendment request letter. Please provide by reply email or fax (817-860-8263). When you provide the information please make reference to mail control number 572939). Thank you.
