Dear Dr. Gabriel:

This is to inform you that I have spent about an hour with Satya R. Bose, Ph.D., ABR about the use of Iodine 131 and explained the policy and procedures as mandated in 10CFR35300. Dr. Bose observed an I-131 administration in the department of Radiation Oncology on May 19, 2010 at which time the patient received 29mCi. He has sufficient knowledge and experience about the treatment procedures using Iodine 131.

If you have any questions, please contact me at 202-865-1721.

Sincerely,
