Subject: RAI, Activity Limits

(NOTE: This will be used as the
Documents Title in ADAMS)

Mr. Weisberg, the current NRC policy is to have activity limits on the license for all isotopes. Please determine the amount you would like to be licensed for each radionuclide on your license. Please consider the amount you have on hand, the amount of waste you have, the amount of waste you need before transfer to a waste vendor, and any future expansion needs. Mr. Weisberg said that he would fax or email me the amounts that he needed on the license.

Action Required: Amend license once the amounts to be licensed are known.
