Subject: Meeting request - Yucca Mtn

Hi Amy – Would it be possible for us to set up a meeting with you/other NRC staff to discuss some procedural issues related to NRC's review of the Yucca Mountain license application? It wouldn't need to be nearly as in depth as the last one you arranged for us at your HQ. Additionally, some of the Affected Units of Local Government have inquired about access to information and NRC proceedings, as well as web streaming of NRC proceedings, so we'd like to talk about those issues as well.

If we could meet sometime before the license walkthrough next Thursday that would be ideal, but if that won't workout we can find another time. Thanks!

Alex
