I'm going to grab lunch - when I come back in, I'll stop by the lobby where the Webfeed is being shown.

Wow... I just got out of a meeting and went to the website. I'm still standing by, maybe there's a queue to access the feed.

Hello - are you tuned into the Webstream of the oral arguments? Let me know how it is working... due to bandwidth constraints on our internal system, they have restricted NRC staff desktop access to one building (that houses our HLW staff), one lobby's screen, and the ASLB hearing room... so you will know better than I how it is working!
