Subject: September 14-15 prehearing conference at NRC's Las Vegas Hearing facility

Message: 09-01-09 Board (Memo and Order (Logistics for Prehearing Conference).pdf (142 KB)

Hi all -

The attached Memo and Order was just issued to outline logistics for the September 14-15th prehearing conference for the Construction Authorization Board and parties in the proceedings on the DOE's application to build a high-level waste repository at Yucca Mountain. If any of you in the State/district offices plan to attend "live" at NRC's public hearing facility in Las Vegas, please let me know and I'll make sure that security knows that you are coming (this will save you time getting into the building). The attached document includes links to view the webstream of the proceedings.

I hope everyone is doing well and enjoying the end of summer!
