Message: 02-16-10 Board Order Granting Stay of Proceeding.pdf (104 KB)

Hi all -

Attached is an Order from the Atomic Safety and Licensing Board (ASLB) that was issued today, granting the Department of Energy's motion to stay the adjudicatory proceeding re: the Yucca Mountain license application until the Board resolves DOE's expected motion to withdraw its license application (referenced in DOE's 2/1/10 filing to the Board). This suspends most activities except for some responses to outstanding ASLB requests and an archiving plan for License Support Network documents.
